PITCH DECK

SCANVAS

Where Children’s Creativity Comes Alive

Children turn their paper artwork into interactive characters in the browser.

Interactive Learning Is Still Hard to Reach in Yogyakarta

1

ACCESS

Yogyakarta is a student city, yet modern interactive learning is mostly found in international schools, or in big-city museums with 3D animation, such as in Jakarta.

2

STAYS ON THE PAGE

Learning about animals of the ocean, land, and air often stays in books and worksheets. When the coloring ends, the activity ends.

3

PASSIVE SCREENS

Digital entertainment gives children ready-made characters to watch, not to create.

THEREFORE

Scanvas is an affordable interactive animation learning platform: children learn about animals through their own artwork.

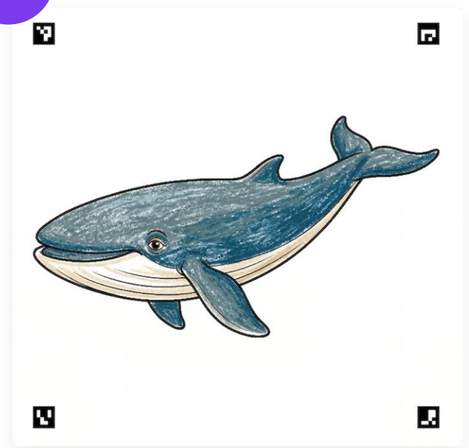

From our pilot at a TPA in D.I. Yogyakarta

Their Artwork Becomes the Character

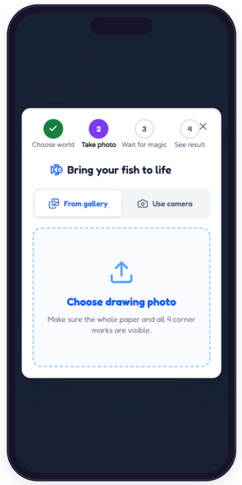

1

COLOR

Create on a printed Scanvas sheet.

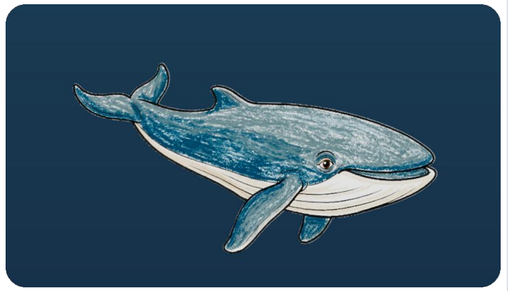

2

SCAN

Photograph or upload the artwork in the browser.

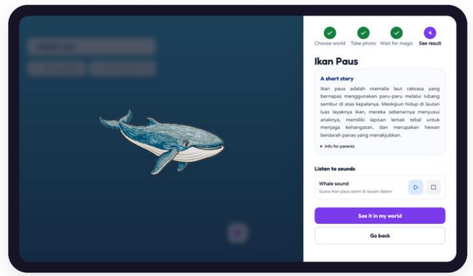

3

COME ALIVE

See the drawing move inside an interactive world.

4

EXPLORE

Discover sounds and facts connected to the character.

The child's colors and artwork stay at the center of the experience.

✓ No app installation required

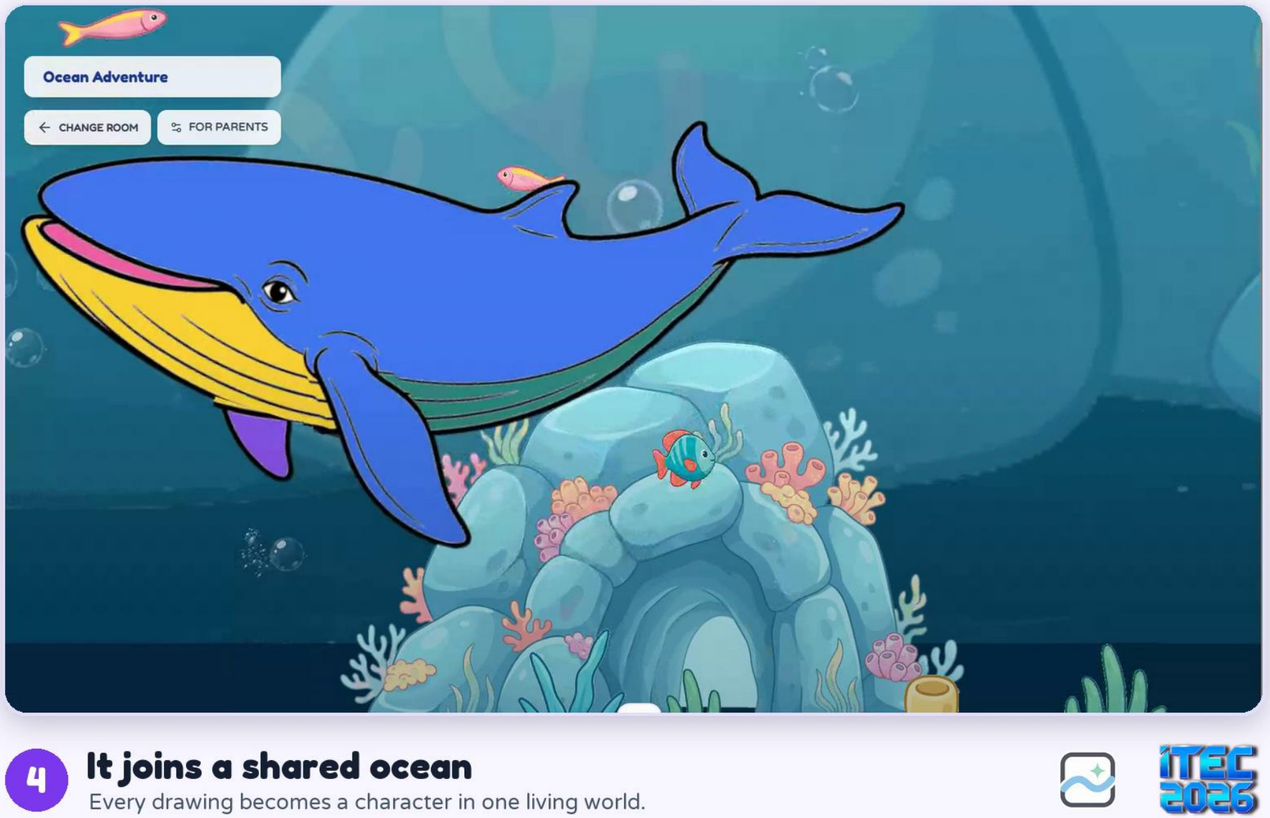

LIVE DEMO · 37 SECONDS

See Scanvas in Action

Our free digital trial lets families experience Scanvas before buying a physical pack. Choose a drawing, color it in the browser, and watch it come alive in the ocean.

LIVE TODAY

- Ocean and Vehicle worlds
- Paper artwork scanning
- Free digital coloring trial
- Character sounds and facts

Recorded on the live product. Click the video to play.

Our First Pilot Shaped the Product

30
children · one real-world TPA pilot in D.I. Yogyakarta

2
interactive worlds live

5
product priorities identified from feedback

SHIPPED

- ✓ Larger interactive world
- ✓ Digital trial before purchase

IN DEVELOPMENT

- → Bulk drawing processing
- → Story and learning space
- → Additional worlds

WHAT WE HAVE DEMONSTRATED

We ran the experience with children and used feedback to guide development.

WHAT WE NEED TO VALIDATE NEXT

Willingness to pay and repeat use.

PRE-REVENUE

First real-world pilot · TPA, D.I. Yogyakarta

Starting With Public Schools in Yogyakarta, Then Other Cities

FIRST CUSTOMER SEGMENT

Public PAUD, TK, and primary schools in Yogyakarta, plus TPA, where we ran our pilot.

BUYER

Principals, teachers, and activity coordinators.

USER

Children aged 3–10, supported by adults.

INITIAL OFFER

A facilitated session where children see their artwork come alive: about Rp33K per child at our test price.

WHERE WE GO · PAUD + PRIMARY SCHOOL UNITS

7,123	D.I. Yogyakarta · start
62,797	Central Java + DIY · next cities
420,886	Indonesia

FIRST-YEAR COMMERCIAL TARGET

48 paid sessions

A transaction target, not 48 unique customers.

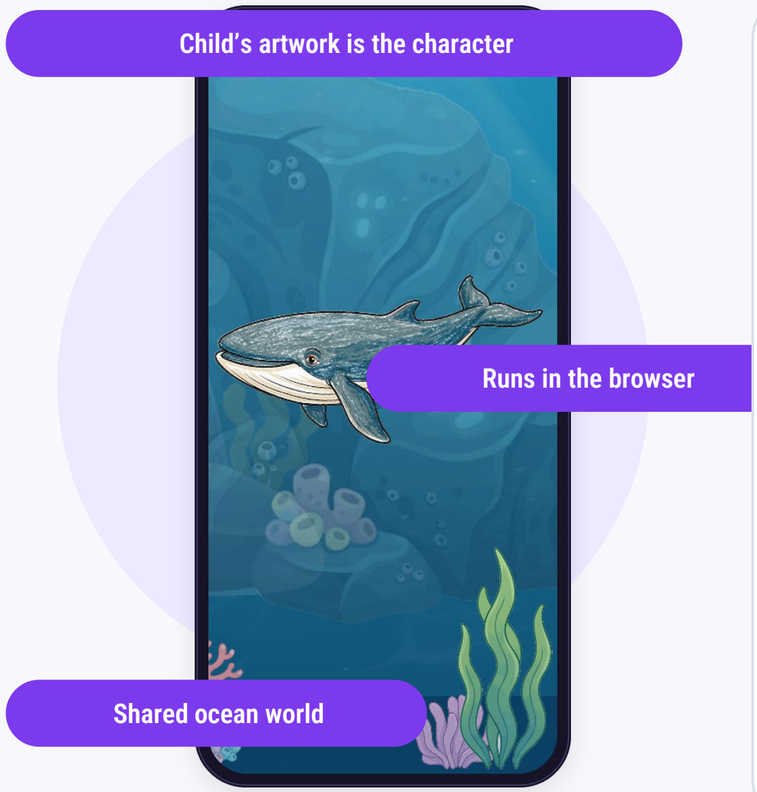

Families can also purchase creative packs for use at home.

Source: Kemendikdasmen education reference data (public and private units), accessed September 2026. Institution counts describe market coverage, not confirmed demand.

Personal Artwork, Browser Access, and Shared Worlds

Paper-to-digital coloring already has established alternatives, including:

Faber-Castell ARt Alive	Mobile app
Quiver	Mobile app
WAGZAK JUMP	Mobile app
teamLab Sketch Aquarium	Venue-based

SCANVAS COMBINES

- The child's artwork as the animated character
- Browser access without installing an app
- Shared interactive worlds
- A reusable engine for additional themes

Our next test: whether this combination earns paid, repeat use.

Paid Sessions First, Family Packs Alongside

OFFER		TEST PRICE	NEXT VALIDATION
FIRST	**Managed school or event session** up to 30 children	**Rp1,000,000**	Paid booking · delivery cost · rebooking
ALONGSIDE	**Family creative pack** for use at home	**Rp49,000**	Purchase conversion · contribution margin · repeat purchase

Institutional acquisition

DIRECT OUTREACH → DEMONSTRATION → FIRST PAID SESSION → REBOOKING

Session feedback and follow-up offers support rebooking.

Family acquisition

SHORT PRODUCT VIDEOS → FREE TRIAL → PACK ORDER VIA WHATSAPP

Short videos introduce the experience; the free trial leads to ordering.

Both prices are assumptions for commercial testing.

MEET OUR TEAM

Two Founders Cover Business and Product

Equity: Haikal 60% · Salsabila 40%

Haikal Hilmi

CEO & Co-Founder

- Product and engineering
- Computer-vision scanning
- Interactive web platform

Salsabila Khoirunnisa

CMO & Co-Founder

- Customer discovery
- Institutional partnerships
- Marketing and go-to-market

EXECUTION TO DATE

- Live browser product
- Two interactive worlds
- One completed pilot with 30 children

NEXT CAPABILITY TO STRENGTHEN

Institutional sales and repeatable session delivery.

A 12-Month Plan to Validate Paid, Repeat Use

COMPLETED

Built and tested

- ✓ Live product
- ✓ Ocean and Vehicle worlds
- ✓ First 30-child pilot

MONTHS 1–3

Validate the offer

- → Test session and pack pricing.
- → Measure scan reliability and delivery costs.
- → Begin paid sessions.

MONTHS 4–6

Test repeat use

- → Pilot Scanvas Studio with institutional users.
- → Test a three-lesson creative program.
- → Measure family repurchase and institutional rebooking separately.

MONTHS 7–12

Expand what works

- → Target 48 paid sessions and 600 family packs cumulatively.
- → Expand from two to four worlds.
- → Explore partner-led localization.

Expansion follows evidence of paid demand and repeat use.

Seeking Rp200 Million for 12 Months of Validation

USE OF FUNDS

Founder compensation · Two founders at Rp4M / month each	**Rp96M**
Go-to-market and pilot acquisition	**Rp30M**
Product and infrastructure	**Rp24M**
Packs, samples, and demo materials	**Rp20M**
Content and additional worlds	**Rp20M**
Legal, administration, and contingency	**Rp10M**
Total	**Rp200M**

12-MONTH TARGETS

- 48 paid school / event sessions
- 600 family packs
- Four interactive worlds
- Scanvas Studio operational
- Repeat purchase and rebooking measured separately

ILLUSTRATIVE REVENUE SCENARIO

Rp77.4M

48 sessions at Rp1M + 600 packs at Rp49K

Targets and prices are planning assumptions. Revenue represents sales, before costs.

Our Next Step Through ITEC

Institutional pilot partners

Schools and activity organizers to test paid, repeatable sessions.

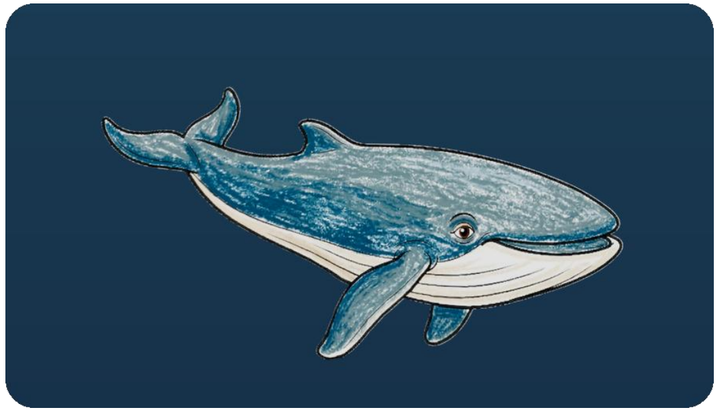

Content and localization partners

Children’s content creators and cultural partners to develop relevant worlds.

A potential Chaoyang pilot

Work with a local partner to select a use case, adapt language and content, and test demand before committing to expansion.

Scanvas gives children a world shaped by their own creativity.

SUPPORTING SLIDES

For Q&A · competitor matrix · market data · technology & child data · financial detail · exit strategy

Competitors Prove the Category; Scanvas Combines Web Access, Personalisation, and Shared Worlds

		DIRECT			INDIRECT
	Scanvas	**Faber-Castell ARt Alive**	**Quiver**	**WAGZAK JUMP**	**teamLab Sketch Aquarium**
Paper coloring → digital	✓	✓	✓	✓	✓
Child's artwork becomes character	✓	✓	✓	✓	✓
No app required (web)	✓	–	–	–	Venue only
Shared interactive worlds	✓	–	–	–	✓
Educational / story content	✓	Some	✓	✓	Some
Institutional sessions	**Pilot**	–	Edu subscription	School license	Installation
Large ready-made content library	**2 worlds**	–	✓	100+ lessons	–
Brand & distribution reach	**Early**	Retail brand	26M+ downloads	30 languages	Museums

Scanvas does not need to replace these products. The opportunity is to combine a low-friction web experience, child-generated characters, shared worlds, and a reusable content engine.

Indirect competition also includes video and game apps that compete for screen time. Evidence checked Sep 2026 on each product's official site.

Start With a Reachable Beachhead, Then Scale Distribution

Bottom-up: count of PAUD + primary-school units (our institutional buyers), plus a BPS-based estimate of children aged 3–10.

WEDGE

D.I. Yogyakarta

7,123

PAUD + primary schools

First institutional beachhead, where our first pilot ran.

SCALE

Central Java + DIY

62,797

PAUD + primary schools

School sessions, events, and Scanvas Studio.

NATIONAL

Indonesia

420,886

PAUD + primary schools

≈35.3M children aged 3–10.*

EXPAND

Southeast Asia

SEA

same engine, local content

New languages, worlds, cultural content, partners.

Institution counts represent the first distribution beachhead — not the entire Scanvas market. Families, events, and content expand beyond it.

Kemendikdasmen: referensi.data.kemendikdasmen.go.id (PAUD & Dikdas per province), accessed Sep 2026. BPS: Jumlah Penduduk Menurut Kelompok Umur, Long Form SP2020 (2022). TPA in Kemendikdasmen data = Taman Penitipan Anak.

One Pipeline, Responsible Child Data, and a Validation Gate Before Every Build

1 — Physical creation

Child colors a Scanvas sheet

2 — Capture

Camera or photo upload

3 — Computer vision

Marker detection

Perspective correction

Crop

Object extraction

4 — Digital asset

Child's artwork becomes the character

5 — Interactive runtime

Animation

Movement

Sounds

Interactive world

6 — Content layer

Story

Facts

Discovery

7 — Reusable world engine

Ocean

Vehicles

Future: culture, nature, characters

RESPONSIBLE CHILD DATA

Collect only what is necessary. No child name, parent identity, email, phone, precise location, or artwork itself as analytics payload by default.

VALIDATION PRINCIPLE

Build → Measure → Gate → Expand

Do not build the full course before a 3-lesson pilot validates progression and willingness to pay. Do not build large Mission/Story/AI layers before repeat usage is proven.

Rp200M Funds 12 Months to Prove Paid, Repeat Use

12-MONTH CAPITAL NEED

Rp200M

≈ US$12K (at Rp16,500 / US$, indicative)

Founder runway, scan reliability, Scanvas Studio, school acquisition, production, and new worlds, so the next round is raised on proven repeat use.

12 MONTHS

USE OF FUNDS

Team & operations — Rp96M · 48%
Two founders at Rp4M / month each

Go-to-market — Rp30M · 15%
School pilots, demos, community activation

Product & technology — Rp24M · 12%
Infrastructure, scan reliability, Studio

Production — Rp20M · 10%
Packs, samples, demo materials

Content — Rp20M · 10%
2 → 4 interactive worlds

Legal & contingency — Rp10M · 5%
Administration, accounting, contracts

MILESTONES IT UNLOCKS · 12 MONTHS

- 48 paid school / event sessions
- 1,440 children in paid sessions
- 600 family packs
- 4 interactive worlds
- Scanvas Studio operational
- ≥20% repeat purchase / rebooking
- Rp77.4M first-year revenue (base case)

Founders' 12-month financial model, Sep 2026. Base case assumes family pack Rp49K and managed session Rp1M (up to 30 children): current test assumptions, not yet validated at commercial volume.

Exit Strategy: Build a Content & IP Engine That Strategic Buyers Want

Indicative path, not a commitment: build proven value first, keep exit options open.

0–12 MONTHS

Prove repeat use

48 paid sessions · ≥20% repeat · Rp77.4M base case

YEARS 1–3

Scale distribution

More worlds, school networks, ASEAN localisation

YEARS 3–5

Content & IP platform

Licensing, partner content, regional institutions

YEAR 5+

Exit window

Strategic acquisition or later-stage buyout

PRIMARY

Strategic acquisition

Edtech platforms, children's publishers, stationery and toy brands, or media / IP companies gain a ready engine, a content library, and school distribution.

BRIDGE

Licensing & partnerships

License the engine and worlds to brands and publishers: revenue now, acquirer relationships later.

ALTERNATIVE

Secondary sale

Later-stage investors buy early shareholders out as Scanvas scales across ASEAN.

LONG-TERM

IPO

Only at regional scale; not part of the near-term plan.

What makes Scanvas acquirable: reusable world engine · child-generated content format · institutional distribution · privacy-by-design child data
